

DUST MOP TREATMENT

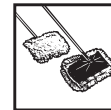

Ready-To-Use Aerosol

Frequent use of this product easily prevents dust from scattering. Treated dust mops and dust cloths attract and hold dust like a magnet. This product will restore floor sheen without leaving an oily film when used as directed. Emulsifiable formulation can be easily washed from treated items therefore releasing the picked up soil. A must for any dust control program!

USES

- Dust cloths
- Dust mops
- Entrance mats
- Furnace filters
- Resilient tile floors
- Wood floors

BENEFITS

- Economical – Convenient aerosol provides easy, accurate application to cloth or mop. A small amount goes a long way. This product actually increases the holding capacity of dust mops and cloths without causing mop drag.
- Versatile – May be used on mops, cloths, furnace filters and walk off matting. Use anywhere you wish to control or gather dust and dirt.
- No CFSs – Federal regulations prohibit the use of CFC propellants in aerosol formulations.

PROPERTIES

Appearance	White emulsion
Flammability	Nonflammable per CPSC Flame Projection Test
Fragrance	Citrus
Freeze/thaw stability	3 cycles
Net weight	17 ounces
Rinsability	Complete
Shelf life	1 year
