

FiberPRO™

DRY FOAM

Concentrate 1:24

Carpet and Upholstery Shampoo

This product is a highly concentrated, synergistic blend of detergents and solvents which instantly emulsify oily soil, loosen dirt and trap it for easy removal. This product produces a rich, thick foam that releases soil from carpet fibers and traps it for quick, easy removal. This unique low moisture foam is fast drying and insures against "over-wet" carpet to allow traffic back on the carpet sooner. Any residue left behind dries to a brittle powder which simple vacuuming removes easily. This product also incorporates the deodorizing power of patented O₃Z to refresh carpets and eliminate many common malodors.

USES

- Recommended for use with rotary dry foam shampoo equipment on all type of carpeting (except 5th generation).

BENEFITS

- Fast drying - Low wetting for less down time.
- Traps dirt - Soils in a hard powder for easy removal with simple vacuuming and leaves no sticky residue.

PROPERTIES

Carpet wetting	Minimal
Color	Blue
Fragrance	Pleasant
Fumes, vapors	None
Hard water tolerance	Excellent
Oil emulsification	Very good
Optical brighteners	No
pH in dilution	10.7
Spot removal	Excellent

SAFETY

Keep out of reach of children. For institutional and commercial use.

WARNING: Contains alkaline detergents. Avoid contact with eyes. Wear suitable eye wear and gloves. Harmful if swallowed. **FIRST AID:** If splashed on skin or in eyes, flush with large quantities of water. Remove contaminated clothing immediately. If inhaled, get to fresh air. If swallowed, dilute with two glasses of water. Call a physician immediately.

AUTHORIZATION

Requires no authorization by USDA prior to its use in offices and other similar nonprocessing areas.

DIRECTIONS FOR USE

Read the entire label before using this product.

1. Remove furniture and vacuum.
2. Always test first in an inconspicuous area. Apply a small amount, press with an absorbent, white cloth for 10 seconds and see if there has been any dye transfer. Do not continue if there is dye transfer.
3. Spot clean upholstery and carpet to remove heavy stains. Corners should be precleaned with a hand brush using a dilution of 5 oz./gal. or 40 mL/L (1:24) with water.
4. Dilute the product according to the following:
ROTARY MACHINES: LIGHT SOIL: Dilute 2.5 oz./gal. or 20 mL/L (1:50) with water. MEDIUM SOIL: Dilute 4 oz./gal. or 31 mL/L (1:32) with water. HEAVY SOIL: Dilute 5 oz./gal. or 40 mL/L (1:24) with water. DRY FOAM MACHINES: Dilute 5 oz./gal. or 40 mL/L (1:24) with water. MANUAL SHAMPOOING: Dilute 8 oz./gal. or 63 mL/L (1:16) with water. UPHOLSTERY CLEANING: Dilute 8 oz./gal. or 63 mL/L, (1:16) with water.
5. Brush damp pile or nap in one direction using a stiff bristle brush or pile lifter to permit fast, even drying.
6. Allow carpeting to dry for several hours and vacuum thoroughly before replacing furniture. If furniture must be replaced before carpeting is dry, place protective plastic film or aluminum foil under legs of furniture.
