Detergency Excellent
Flash point None
Foaming High
Fragrance Country Fresh
pH 8.5 - 9.5
Shelf life 1 year

AUTHORIZATION

Requires no authorization by USDA prior to its use in offices and other similar nonprocessing areas.

DIRECTIONS FOR USE

Read the entire label before using this product.

Always test first in an inconspicuous area. Apply a small amount, press with an absorbent, white cloth for 10 seconds and see if there has been any dye transfer. Special precautions are necessary if the stain has been caused by animal urine. The urine may affect the color fast nature of the dye used in the carpet. **FOR NORMAL SPOTTING AND STAIN REMOVAL:** Use undiluted. Apply a small amount of liquid spotter to the carpet. Working from outside to center, blot with an absorbent, white cloth (avoid rubbing). Pick up the spotter as quickly as possible. Care should be taken to prevent wetting the carpet backing and possibly jute staining.

SAFETY

Keep out of reach of children. For institutional and commercial use.

WARNING: Contains Dipropylene Glycol Methyl Ether. Avoid contact with skin and eyes. Wear suitable eye wear and gloves. Remove contaminated clothing immediately. Harmful if inhaled or absorbed through skin. Harmful if swallowed. **FIRST AID:** If splashed on skin or in eyes, flush with large quantities of water. If inhaled, get to fresh air. If swallowed, dilute with two glasses of water and induce vomiting. Call a physician.
